## Key Programme Outline

### **OBJECTIVES OF THE COURSE**

- Identify the support needs of families and significant others
- Under supervision, work with the families and significant others of young clients
- Under supervision, monitor the family's progress towards independence

### *Identify the support needs of families and significant others*

- ◆ Assist families and significant others to address immediate and urgent needs
- ◆ Identify the skill levels and capacity of family members to address their circumstances
- ◆ Identify and access opportunities for working in partnership with the family to address specific issues
- ◆ Under supervision, identify and access existing programs to provide support to families and significant others
- ◆ Adjust the support provided to match cultural requirements of the family

### *Under supervision, work with the families and significant others of young clients*

- ◆ Identify the type of involvement required of family members to assist the young client to develop positive attitudes and behavioural traits
- ◆ Follow the organisation's protocols and processes for identifying and involving family members in programmes
- ◆ Organise and conduct activities, including group activities with family members, taking into account cultural considerations to provide support to the young person and encourage family independence
- ◆ Provide education programmes required by family members to be better role models or to address their circumstances

### *Under supervision, monitor the family's progress towards independence*

- ◆ Determine with families and significant others the process for ongoing monitoring of their progress towards independence
- ◆ Evaluate the effectiveness of the different types of support provided
- ◆ Develop an agreed revised plan of action to support young client

## Boys' Town Training and Research Centre (RTTRC)

RTTRC sets to become a centre for youth training and research. Being an Approved Training Organization for WSQ – CSS programmes, we aim to develop and deliver high quality competency training for existing and future youth professionals. We hereby proudly present a series of relevant competency programmes and invite you to be a partner of our competency-based training programmes.

*Strive for Knowledge and Competency*
